located four hundred (400) feet, more or less, west of Steuben street, as shown on a plan hereto attached, marked Exhibit "A" and made part hereof; provided, however, that the bottom of the girders spanning Carson street west shall, at no point, be lower than seven hundred forty-one and twenty-one hundredths (741.21) feet tide level, and the columns supporting the bridge at the curb line shall not be greater in number than five (5) on the southerly side of the street and six (6) on the northerly side of the street, and that the greatest diameter of said columns shall not be more than two (2) feet.

(b) To locate, build, construct and forever maintain and operate, at its own cost and expense, a steel viaduct over, upon and along a portion of the sidewalk of said Carson street west, for a distance not exceeding two hundred sixty (260) feet, at the second angle west of Steuben street, and to operate thereover and thereon a railroad; said viaduct to be supported by nine (9) columns situated on the curb line, and shall be located, built, constructed and maintained in the manner shown on plan hereto attached, marked Exhibit "A;" provided, however, that no part of the steel work of this viaduct shall extend into or over Carson street west further than the northerly curb or ten (10) foot line of Carson street west. The greatest diameter of the columns herein referred to shall not be more than two (2) feet.

Second. The said party of the second part shall have the perpetual right and privilege to use, for railroad purposes, under the terms and conditions set forth in this agreement, such part or parts of the northerly sidewalk of Carson street west, at or near the old city line, as lie to the north of the northern building line of Carson street west, as more particularly hereinafter described and defined in paragraph fourteen, for the purposes of this agreement, and as shown and tinted in red on plan hereto attached, made part hereof, and marked Exhibit "A."

Fourth. Said party of the second part agrees to closely floor with concrete the bridge and viaduct hereinbefore men-

cloned, and at its own cost and expense to so maintain the same so as to entirely prevent the falling therefrom or therethrough of any substance, filth or water into the street below.

Fifth. The design and construction of the bridge and viaduct hereinbefore mentioned shall be subject to the inspection and approval of the Director of the Department of Public Works of the City of Pittsburgh.

Sixth. Said party of the second part agrees to build and maintain, at its own cost and expense, concrete walls wherever it may be necessary to build and maintain the same in order to protect or support Carson street west at its proper legal width and to the grade as hereinafter described. Where the top of any wall is above the grade of Carson street west, as herein described, the southerly face of said wall shall not be further south than the northerly building line of Carson street west. Where the grade of the street is above the grade of the railroad track the northerly face of any wall that may be necessary to support the street shall be perpendicular and on the northerly building line of Carson street west, and the top of said wall shall conform accurately to the grade of Carson street west as herein described, and said party of the second part shall erect, construct and maintain in good safe and serviceable condition, at its own cost and expense, an iron or steel fence along said wall for its entire length; said fence to be located, built, constructed and maintained as shown on plan hereto attached, made part hereof and marked Exhibit "A."

Seventh. The railroad company particularly agrees to build and maintain a concrete wall under the conditions herein set forth, from a point on Carson street west two hundred eighty-five (285) feet, more or less, eastwardly from the old city line, where the grade of its southernmost track meets the grade of Carson street west, as hereinafter described, to a point four hundred seventy-three (473) feet, more or less, westwardly from the old city line, said point being opposite the easterly end of the concrete wall of the Pittsburgh and Lake Erie Railroad Company. The northerly face of said wall shall be perpendicular and on the northern building line of Carson street west, as more particularly hereinafter described and defined in paragraph fourteen for the purposes of this agreement. The top of said wall shall conform accurately to the grade of Carson street west as hereinafter described. The top of said wall shall be finished level transversely, and be given a top finish of one (1) inch of equal parts of sand and cement so that it may be used as part of the sidewalk.

Eighth. Said party of the second part further agrees to erect and maintain, in good, safe and serviceable condition, at its own cost and expense, an iron or steel fence along said wall for its entire length; said fence to be located, built, constructed and maintained as shown on plan hereto attached, marked Exhibit "A" and made part of this agreement.

Ninth. Said party of the second part further agrees to indemnify and save

harmless the City of Pittsburgh from any and all costs, damages and expenses whatsoever arising from or in any manner pertaining to the location, construction or maintenance of the steel bridge and viaduct hereinbefore mentioned, and from any and all damages whatsoever arising or occurring by reason of any rights or privileges whatsoever granted to said party of the second part by this agreement.

Tenth. Said party of the second part expressly agrees that before August 1, 1910, it will tear down and remove from off Carson street west those two certain wooden bridges and other structures which it now maintains on said street, and that it will tear down and remove said wooden bridges and other structures before August 1, 1910, in case the new bridge and viaduct provided for in this agreement shall be completed before August 1, 1910, and in case of the refusal or failure of said party of the second part to remove said wooden bridges and structures from off said street before August 1, 1910, said City of Pittsburgh shall have the right, at any time thereafter, to remove the same from off said street without any interference whatsoever on the part of the party of the second part, and said party of the second part shall reimburse the City of Pittsburgh for any costs or damages which may arise by reason of the removal of the same by the said city upon the failure of the party of the second part to do so before August 1, 1910.

Eleventh. Said party of the second part further agrees, so as not to retard the City of Pittsburgh in the grading, paving and curbing of said Carson street west, within the lines and to the grades hereinafter described, to complete on or before August 1, 1910, all the work contemplated in the erection of said bridge, viaduct and approaches thereto, and the construction of all walls and fences, in so far as the same is a necessary part of or affects the proposed improvements of said Carson street west to the hereinafter described lines and grades.

Twelfth. Said party of the second part further agrees to pay to the City of Pittsburgh such portions of the cost of making municipal improvements on Carson street west, between Steuben street and the old city line, as will be required to improve said street to the grade and to the lines hereinafter designated, as lies between the northern building line of Carson street west, as hereinafter described, and a line eight and one-half (8½) feet northwardly from the center line of Carson street west and parallel with the north building line of Carson street west as herein described.

Thirteenth. It is expressly understood and agreed that all rights and privileges whatsoever granted and conferred by this agreement upon said party of the second part are taken and received subject to the following condition: That should said party of the second part, its receivers, lessees, successors and assigns ever exercise, or attempt to exercise, any alleged rights it may have acquired from the Chartiers

and Robinson Township Turnpike Company, or from any other source whatsoever, to construct a railroad, elevated or otherwise, upon Carson street west, between Steuben street and Chartiers creek, other than in accordance with the terms and conditions of this agreement contained, that all rights and privileges whatsoever granted herein shall forthwith cease and determine.

Fourteenth. For the purposes of this agreement it is understood and agreed that the northern building line of Carson street west, within the territory involved in this agreement, shall be as follows:

The north building line of Carson street west shall begin at the intersection of the east curb line of Steuben street and the north building line of Carson street west, at a distance of 52.23 feet from the south building line of Carson street west; thence deflecting to the left $106^{\circ} 48' 0''$ for a distance of 306.56 feet to a point; thence deflecting to the right $3^{\circ} 19' 0''$ for a distance of 567.99 feet to a point; thence deflecting to the left $10^{\circ} 06' 40''$ for a distance of 325.74 feet to a point; thence deflecting to the right $6^{\circ} 39' 0''$ for a distance of 585.97 feet to a point; thence deflecting to the left $1^{\circ} 50' 0''$ for a distance of 421.95 feet to a point; thence deflecting to the right $2^{\circ} 29' 58''$ for a distance of 268.08 feet to a point opposite the easterly end of the P. & L. E. R. R. wall, as now built, and as shown and indicated by reference points on plan hereto attached and marked Exhibit "A," and made part of this agreement.

The grade of Carson street west, for purposes of this agreement, shall be as follows:

The grade of the north curb line of Carson street west shall begin at the intersection of the east curb line of Steuben street produced with the north curb line of Carson street west at an elevation of 32.51 feet; thence rising at the rate of 0.57 feet per 100 feet for a distance of 150 feet to a point of curve to an elevation of 33.37 feet; thence by a convex parabolic curve for a distance of 100 feet to a point of tangent to an elevation of 33.09 feet; thence falling at the rate of 1.135 feet per 100 feet for a distance of 234.11 feet to a point to an elevation of 30.43 feet; thence rising at the rate of 0.75 feet per 100 feet for a distance of 233.96 feet to a point of curve to an elevation of 32.18 feet; thence by a convex parabolic curve for a distance of 100 feet to a point of tangent to an elevation of 32.18 feet; thence falling at the rate of 0.75 feet per 100 feet for a distance of 174.04 feet to a point of curve to an elevation of 30.87 feet; thence by a concave parabolic curve for a distance of 100 feet to a point of tangent to an elevation of 30.87 feet; thence rising at the rate of 0.75 feet per 100 feet for a distance of 125 feet to a point of curve to an elevation of 31.81 feet; thence by a concave parabolic curve for a distance of 50 feet to a point of tangent to an elevation of 32.42 feet; thence rising at the rate of 1.687 feet per 100 feet for a distance of 830.83 feet to a point of curve to an elevation of 46.44 feet; thence by a concave parabolic curve for a distance

The curb lines of Carson street west shall be considered as being ten (10) feet from either building line and parallel thereto.

The city, however, retains its right to make such changes in the lines and grades of Carson street west herein agreed upon as may not conflict with the terms of this agreement.

The old city line is understood to be the line which divided the former Thirty-sixth ward of Pittsburgh from the Borough of Esplen, afterwards the Fortieth ward of Pittsburgh, and now part of the Twentieth ward of Pittsburgh.

AN ORDINANCE—Regulating the opening of the surface of streets, alleys and highways of the City of Pittsburgh by other than the corporate authorities of said city; requiring permits therefor to be taken out and fixing charges therefor; prescribing the conditions upon which the same will be granted, and providing for replacing said openings; and prescribing the punishment for violations of the provisions of this Ordinance.

Section 1. *Be it ordained and enacted by the City of Pittsburgh in Select and Common Councils assembled, and it is hereby ordained and enacted by the authority of the same, That* the opening of the surface of any street, alley or highway of the City of Pittsburgh by other than the corporate authorities of said city is hereby prohibited unless a permit is obtained for that purpose in the manner hereinafter prescribed. Such permit shall only be granted by the Director of the Department of Public Works of said city, by and through the Superintendent of the Bureau of Highways and Sewers, when the person, firm or corporation applying for such permit files an application with said bureau in compliance with the provisions of this Ordinance and pays into the city treasury the amounts hereinafter prescribed for such street surface opening permits. Each application filed and each permit granted for the opening of any street, alley or highway of said city, for any purpose whatsoever, shall distinctly set forth the purpose for which said opening is to be made, the size, extent and location of the same, and the date or dates during which said opening is to be permitted. The opening of any street, alley or highway of said city for any other purpose, or to a greater extent, or at any other location, or upon a different date than that specifically set forth in the application and permit hereinafter mentioned, or the allowing of any such opening to remain unfilled or unsurfaced after the date or time specified in such permit, is hereby prohibited, and each of said violations is hereby declared to be an offense within the meaning of this Ordinance.

Section 2. Permits for the opening of the surface of any streets, alleys or highways of said city shall only be granted upon compliance with the following express provisions:

Such application shall set forth the purpose for which such opening is to be made; the extent, size and location of the same; the date or dates during which such opening is to be permitted; the

(c) Prior to the issuing of such permit every such applicant shall pay to the City Treasurer the amount hereinafter required to be paid for such opening, and shall exhibit to the Bureau of Highways and Sewers the receipt for the amount so as aforesaid paid before any permit shall be issued.

(d) Where the permit for the opening of such street, alley or highway is required for the water supply purposes, the application shall be countersigned by the Superintendent of Water Supply and Distribution, or the person in his office in charge of the same, before the permit will be granted by the said Bureau of Highways and Sewers.

When opening is for the purpose of connecting any house, store or other

buildings or property with a sewer, no permit will be issued by the Department of Public Works of the City of Pittsburgh, except upon the presentation of a proper certificate issued by the Department of Public Health of the City of Pittsburgh.

(e) No permit shall be granted to any applicant unless said applicant shall have paid to said city any and all moneys then due to said city for prior openings made, or for any loss, damage or expense in any manner occasioned by, or arising from the opening of streets, alleys or highways of said city under prior permits.

ROBERT CLARK,

Clerk Common Council.

March 17, 1910.

To the Select and Common Councils of the City of Pittsburgh:

Gentlemen—I return herewith, with my approval, C. C. No. 609, except \$25,000.00 of the item "Carnegie Libraries, \$250,000.00," reducing the same unless overruled by your honorable bodies to \$225,000.00. My reason for this action is that an effort must be made in all departments towards retrenchment. This year all appropriations, including the most vital municipal necessities, have been cut to a minimum to meet an urgent demand from the taxpayers. I do not have any fear that a judicious scrutiny of the expenditures of the libraries will reveal opportunities for curtailment of expenditures without reducing the efficiency of the institution.

Respectfully submitted,

WILLIAM A. MAGEE,

Mayor.

Mayor's Office, Pittsburgh, Pa.

No. 134

Be it Resolved, By the Councils of the City of Pittsburgh that

Whereas, Approximately seventy per cent. of the revenues of Allegheny County arise out of city valuations and assessments; and

Whereas, The whole southern portion of Allegheny County adjoining the City of Pittsburgh is connected up and made accessible to this city only in a very qualified and limited manner; and

Whereas, It is essential for the prosperity and welfare of this city that at least one direct highway be constructed, making the southern portion of the county known as "South Hills" (partly within and partly without the city) accessible to the city proper; and

Whereas, We regard such an improvement, by bridge crossing the Monongahela river and tunnel under Mt. Washington, an improvement of great merit and great necessity; and

Whereas, Further there are only four incline planes and two roadways connecting the flat land on the South Side with the so-called "South Hills," thereby imposing, through congested inclines or long winding roads, upon a population approximating one hundred thousand people, almost wholly within the City of Pittsburgh, tolls for the transportation of freight that are exceedingly burdensome and oppressive; and

Whereas, Such a highway is for the great material benefit of the people of the City of Pittsburgh and the County of Allegheny;

Therefore be and it is the sense of this body of Councils of the City of Pittsburgh that the County Commissioners be requested, under a law authorizing them thereto, to begin the construction of such a highway at such early moment and for such purpose as the public interest and welfare require.

Whereas, A tract of land containing about 26 acres, situate on the Brighton road, in the Twenty-seventh ward, Pittsburgh (formerly Eleventh ward, Allegheny), owned by Elizabeth T. Hoffman, has been assessed by the City of Pittsburgh for street improvements, sewers and general taxes to the amount of \$19,361.13, as shown by statement hereto annexed; and

Whereas, The said land is mainly used for farming purposes and the income therefrom is small, and the said property is at the present time unmarketable and the owner is unable to pay the said assessments; and

Whereas, If the payment of the said assessments is enforced by the sale of the said property it is probable the city will be compelled to buy in the same; and
